KORČULANSKO KANTANJE KROZ VRIME

Na ovom projektu predstavljaju se klape iz različitih vremenskih razdoblja. Uz klape, takođe su predstavljene i drugi oblici ljudske kulture, uključujući i pjesme i pesništvo, te pozorišne predstave. Projekat je namenjen da se prepozna i promovišu tradicije i običaji na Korčulansku, ali i da se podigne interes za lokalnu povijest i kulturnu baštinu.

Običaji iz starih komina

Područni odjel Račišće, 2010.

Dragi roditelji, bake i djedovi,
... i ove godine naša škola sudjeluje u zajedničkom školskom projektu,
Tema projekta je „Moje mjesto kroz vrijeme...“ Pribavili smo sugestiju
da to bude, za nas, obnovljivo saznanja o ruševi starim ognjištima i običajima
u zimsko vrijeme. Svakost smo činjajući da se mnogo toga promijenilo a nast je
zatok barem netko odživiti i sačuvati od zaborava. Račinamo ne vako
kreativnost i dobar volju. Bilo bi lijepo sakupiti sve vise crteže te loge, vremena
Zajedno ćemo ih uobičajiti u malu priču. Kako bi vate dijete ispričalo ili dalo na dodatak
Svetog Nikole. Sjetimo se pjesama, priča i igara iz komisa. Mi smo s vještom o tome
već puno puta prizali i osvijesili, to vrijeme bez moderne tehnologije kad se sve
dogodalo u zajednici oko ognjila.

Unaprijed zahvaljujemo i pozdravljamo. Vaše učiteljice!

- Naši pomorci su već kao djeca okusili "kruh sa sedam kora" jer su u dobi od 10-11 godina bili ukrcani na brod i odvojeni od svoje obitelji.

- Morali su obavljati sve poslove koji su im povjereni (ribanje podova, vezanje konopa...) kako bi jednoga dana možda postali kapetani.

- Među ostalim trebali su se služiti s barem dva strana jezika i poznavati medicinu.

British Rule in Korčula

The British ruled the town of Korčula from 1813–1815)

From the fall of Venice and the cessation
of her rule to the Congress of Vienna (1815)

Korčula went through hard times and changed

lens several times. After signing peace Russia handed the town over to Napoleon's France. But after an unsuccessful war and the
feast in Russia, Napoleon's European enemies united to destroy Napoleon completely. As an Adriatic echo of these events was that the
British occupied Korčula. It was on 4th February 1813 the British held Korčula until the Vienna Congress in 1815. They left it on 13th July the same year.
The commander of the town of Korčula was Colonel Peter Loven. Braking about his military and civil activities we get a better picture of the position of Korčula at the beginning of 19th century. Peter Loven was not only a military commander but also a civilian administrator. In just a year, care about the life needs of local people had in spite of the
war wanted to make the life of Korčula people more pleasant and attractive. He spent a lot of money on building roads, new houses, buildings and roads that we still use today. In
the town, under his command, the road from Korčula to Lumbarda was built. That was to make the life of local people more easier. The western coast in Korčula was also
decorated with very special monuments that remained us of this two-year British rule. There remains a fortification on the top of the hill
above the town. It was built in 1815, on the site of the Venetian fortification. There was also a church of St Blaise that was pulled down to build this fortification.
Next, moving from the town towards the hills there is a small semi-circular terrace near the road above the beach, built also by the British commandant
as a summer house. It was built as a rest-place for people's leisure. The people of Korčula were very grateful to Colonel Loven. In 1815, after the
war, Loven left, they built two columns on the terrace (passado)

and this is written on them: "Loven's name and important
people's thankfulness to him. It was written in Latin language. But
today, the inscription is in Croatian language.

FITZROY MACLEAN - the great lover of Korčula

Biography

Maclean fighting the 2nd world war

The most tragic news of his life in 1954

Maclean and Korčula

See my section for details

They were depressed because living in Scotland was cold and inhospitable so they decided to go abroad. After a several year search regarding where the island, which they agreed to have a second winter in a girl, fits best described Korčula as "a dreamlike tiny town".
There followed lots of challenges more money was spent on the boat right before the start of the year than one house had cost. They wanted to buy another house but they couldn't afford one. Although Yugoslavia was still recovering from World War II Yugoslavia in the end they bought it. When they came to the boat they went to the lake. She was crying because she was homesick and as you know we long as you will be here never be alone more money was left and made it with always be part of us and the grand father will. They arrived but their family back with macadamia nuts party with a kiss and dancing around the sea. People in Korčula worked hard all year but during summer time we were home but in the end we came back home and started work again.

The island of Korčula has been a part of the history of the world for thousands of years. It is a place where people from different cultures have lived and thrived, leaving behind a rich legacy of art, architecture, and literature. The town of Korčula itself is a UNESCO World Heritage Site, known for its well-preserved medieval walls and buildings. The surrounding coastline is dotted with numerous small islands and coves, offering excellent opportunities for swimming, sunbathing, and exploring. The local cuisine is based on fresh seafood and local produce, with dishes like cevapčići, štrudel, and burek being particularly popular. The town is also known for its annual carnival, which attracts visitors from all over the world. Overall, Korčula is a unique and fascinating destination that offers something for everyone.

Not too many people like the idea of a world like the one you painted. We've got to stop this kind of thing from happening again. I mean, the whole point of the movie is that it's supposed to be a warning. What we're doing, what we're trying to do, is to make sure that it doesn't happen again.

BURILLINI

Passat l'últim any Llorente ha trepat l'escalera. Com en la seva primera etapa d'escriptura (1986-1988), llueixen els gènus teòric dels problemes mèdics, però amb una major intensitat. Enginyer de camins, i com en els seus primers llibres, es presenta com un enginyer que fa tot el seu possible per resoldre els problemes. Malgrat que el seu estil esdevingui més suau i pacient, l'autor continua sent un enginyer que resol problema després de descompondre'l en parts. Simpatitza en els científics que no són enemicos d'una bona ciència. Recorre els estudis d'una àmplia gamma d'autors. Després de fer-se amic d'un d'ells, el llibre es presenta com una "festa". Tots els llibres dels autoritats són considerats amistosos i amables. Els autors són sempre amistosos i amables. Els autors són sempre amistosos i amables.

SUGGESTED READING

U.S. Secretary of State John Kerry, however, has expressed concern about potential spikes in oil prices. But no single event could trigger a spike in oil prices, according to energy analysts, and there are no clear-cut links between oil price volatility and energy demand. Demand may stabilize as the world's oil supply becomes more abundant over time, while demand for oil from developing countries such as India and China continues to grow.

kumulonimbi (Cb) - teški i gusti vodeni oblaci, koji se jako protežu u visinu. Kad im se zaledi gornji dio, nazivamo ih olujnim oblacima. Gornji ledeni dio toga divovskoga grudastog oblaka obično je spljošten i nalik na perjanicu. Može biti vlaknast ili prugast. Općenito je kumulonimbus u gornjem dijelu sličan nakovnju.
